### Introducing the Azalea EMR Adoption Made Easy Program

The Azalea EMR Made Easy Program is designed to help physician practices adopt and implement an EMR system by addressing the complexity of the current healthcare issues including the stimulus. Our financing options\* including deferred payment programs (\*with approved credit) along with the Praxis EMR Stimulus Guarantee address affordability and any uncertainty about future standards.

Azalea Health Innovations' Team approach maximizes implementation success with planning and commitment. The result is an efficient and effective state of the art solution designed to enhance practice workflow while maximizing profits.
