Azalea Health Practice Management
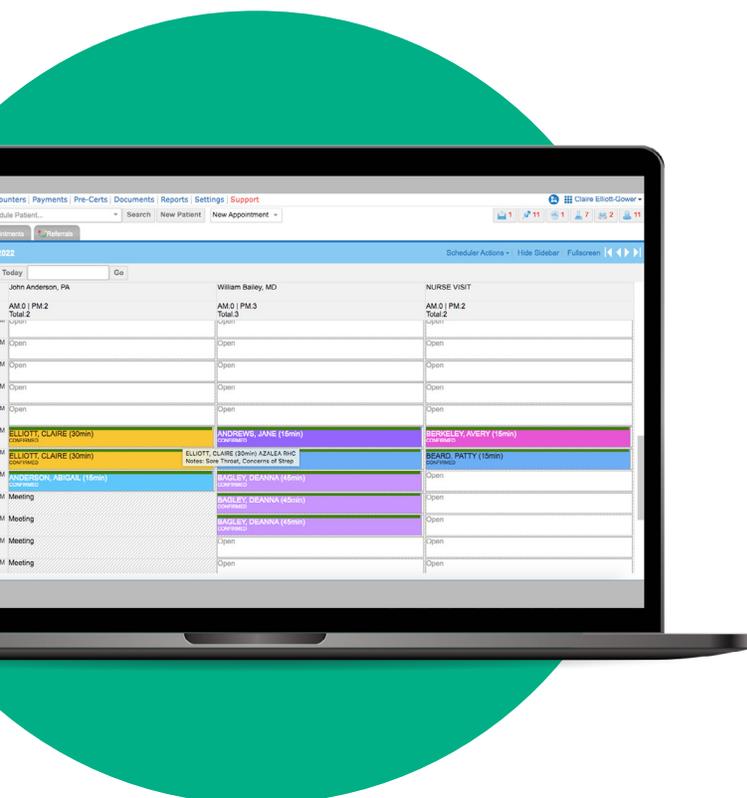

Streamline billing and administrative workflows with our powerful cloud-based solution

Problem: Time consuming eligibility workflows, complicated scheduling, and inefficient billing processes are just some of the hurdles you face each day. The result? A backlog of claims, frustrated staff and lost revenue.

Solution: Designed with ease-of-use as a top priority, Azalea Practice Management (PM) allows you to quickly schedule patients and accelerates your revenue cycle, increasing staff satisfaction and productivity.

37% faster billing and practice workflows[1]

Built by Billers for Billers

Azalea Health started as a billing company so we know how essential it is to post payments quickly and get claims out the door. Azalea's Practice Management was built to accelerate those processes, including **posting payments nearly one minute faster than the industry average.[1]** Plus work queues to help billing teams prioritize their work for the biggest return.

Scheduling Simplified

Quickly schedule patient visits with Azalea. - 30 seconds, on average, for a new patient. That's almost a whole minute faster than the industry average![1] **New patient registration saves you another minute per patient.[1]** Additionally, integrated eligibility checks and drag-and-drop functionality ensure fewer clicks and a more streamlined workflow.

Multi-Location Management

Whether you are scheduling patients across multiple locations or managing billing cycles at a central business office, Azalea's filtering and reporting capabilities ensure smooth and efficient practice operations.

Patient Engagement

Drive patient engagement via Azalea Patient Portal, enabling patients to request appointments, view charges and even pay bills online. Patients can also update their demographics and insurance information, speeding up the patient check-in process. All for no additional fee. Whether it's online or on a mobile device, Azalea's Patient Portal goes where the patient goes.

Reporting Transparency

Configure reports to meet your practice's needs with our comprehensive reporting module. Whether you are looking for a one-time report or recurring ones, across multiple locations or just one practice, Azalea's reports are designed with your practice's workflow in mind.

"The billing is so easy… Azalea has helped usget more money in. [In] the system we had before, our front desk people didn't know abalance was showing. With Azalea, the balance is showing at the top."
