

Knowledge is power.

Are you adequately reporting performance results? Are your team members wrestling with too much data or spending too much time manually producing reports?

Better tools. Better Results. Azalea Analytics.

Measure, Analyze, Improve.... Repeat!

Identify performance status against corporate goals and benchmarks

- Deliver performance results using interactive daily dashboards with drill-through analysis.
- Get a cumulative view of financial, operational, and clinical quality performance with KPIs and CQMs.

Save time with scheduled reporting

Automatically send reports to providers, administrators, staff and executives via email. Include productivity comparison charts and monthly projections using any number of metrics or key performance indicators.

On the fly or One-Off reporting made easy

- Click, drag and drop your way through data analysis.
- With our comprehensive Ad Hoc Analysis tools, you can mine your data freely. Easily compare multiple data points, key performance metrics and time periods with a multitude of filter scenarios on the fly.
